

## Theater Seating by Elegant Home Theaters:

### 1) United Leather USA (Made in Texas)

You know a home theater is about more than the eyes and ears. Done right, it is entertainment for all the senses, and you demand a seating that is as perfectly in tune as the rest of your home cinema.

That's why those who build the most sophisticated home theater systems get their seating from United Leather USA.

Each collection is composed of several modular elements (including chairs, loveseats and a variety of arm sizes), which can be combined to form almost any combination of curved or straight rows.

Most of our cinema collections have complimentary seating in our living room portfolio, so you can have that matching sofa with your row of cinema seating.

### 2) Front Row Seating (Made in Canada)

Since 2003 we've been helping North Americans make the most of their home entertainment experience. We still build everything by hand in our Canadian factories\* utilizing premium materials and old-world construction techniques honed over more than 60 years. For upholstered seating we start with only the finest dried hardwoods and hardwood plywood. State-of-the-art, computer-aided machines cut the wood for tongue-and-groove assembly. Then frames are glued, dowelled, screwed, stapled, and corner-blocked for a lifetime of use. Hardwood is used exclusively at all stress points for superior wear.

We incorporate squeak-free, Teflon-coated spring clips and tempered steel no-sag coils or luxurious pocket coils for all seats. Shaped memory and 2 lb. high-density core foams outlast all others. Finish your personalized masterpiece with 100% top-grain leather from some of the world's finest tanneries or choose from a wide selection of fashion fabrics. We can also work with your own material. We stitch exclusively with 100% nylon thread (on leather) and tape-reinforce seams so you can enjoy your seating for many years to come. In other words, we don't cut corners.

Each Front Row order is custom built to meet your exacting specifications and we wouldn't have it any other way. Incorporating your choice of style, cover, and options, your personalized seating is delivered in eight to twelve weeks (four weeks for stools and tables).

### 3) Fortress Seating (Made in California)

#### **Solving seating challenges since the 40's...**

Primarily a design-oriented manufacturer, Fortress has been providing seating for executives and board rooms for over 75 years. In the late 1990's Fortress first manufactured theater seating for personal home theaters. With theater seating, design is important. But equally important is the comfort.

#### **Theater seating... the beginning...**

Fortress entered the home theater arena because there was a void when it came to custom seating. Designers were creating beautiful home theaters and integrators were designing custom audio and video, and the need for custom seating was apparent. Even with over 30 standard models from which to choose, the need for custom seating is more demanding than ever.

#### **What a good theater chair needs....**

Drawing upon the experience gained in building commercial seating has allowed us to build the strongest theater chair available. Seating is personal – that is why we build each chair according to the order. Comfort... Design... Quality is what you get when you buy a chair from Fortress.

#### **Satisfied customer's state...**

"We chose Fortress because we wanted input into what our theater chairs would look like. At 6'8" a standard chair just didn't work. Thank you Fortress." And another, "We really wanted to maximize our room and thanks to Fortress' willingness to make chairs of different sizes, we were able to get 15 chairs instead of the 13 quoted elsewhere."

#### **Our Pledge...**

and our commitment to service doesn't stop once your chairs are delivered. Customers are important before and after the sale. That's our commitment to you and we've honored it for over 75 years.
